

# VICENZA

Here are some useful information  
for visiting the city of Vicenza

The city of Vicenza is located about 25 minutes from the agriturismo and is easy to reach by bus which stops in Piazza Matteotti, in front of Palazzo Chiericati, 1 minute from the Teatro Olimpico and the information center where you can buy the Vicenza Card and tickets to the main attractions. You don't have to worry about parking and the historic center is a 5-minute walk away.

It is also accessible by train, the station is in fact only a 10-minute walk from Piazza dei Signori.

By car, on the other hand, it is not very practical to get around, the road system is confusing and the parking situation is not the best. You can check the updated situation of available parking spaces on the website:

### Some typical dishes to taste

**Spunciotti and Prosecco:** *Spunciotti* are canapés from Vicenza (meat, fish, with cheese), they are eaten as an accompaniment to an aperitif.

**Vicenza-style cod:** prepared with stockfish, also known as dried cod; the cod is usually of high "Ragno" quality, it is cleaned, floured and cooked over a very low heat in an earthenware pan with plenty of onion, milk and oil in equal quantities. It is served with yellow polenta.

**Soppressa vicentina:** a PDO cured meat obtained exclusively from Large White Landrace and Duroc breed pigs born in the province of Vicenza (tradition has it that it is accompanied by polenta).

**Risotto with bruscandoli:** bruscandoli are the sprouts of hops and grow in humid environments, often found near watercourses, rich in beneficial properties.

**Putana Cake:** typical cake made with stale bread.

**Cestini's:** shortcrust pastry tartlets filled with a special butter cream. You must try Pasticceria Venezia, the city's historic pastry shop in Contrà Pescaria 4.
